

My Fellow Chapter Members, here are some important and timely chapter needs and topics for you:

Updating Your Contact Information: I need your help to update your contact information on the NARFE database. Have you dropped your land line phone? Added or changed a cell phone number? Please go to your NARFE account and update this information for both your best phone and email contact. If you prefer to avoid the hassle, Marshall can do this for you. Please contact him by either simply replying to this email or clicking (or ctrl-click) the following Email link: info@narfe256.com. If needed he can be contacted by phone at: 970-481-9061.

Recent and Upcoming Lunch Programs: We had a great October meeting yesterday by Lee MacDonald who has been studying water in our Colorado fires for 40 years. We got inside information on how well the mitigation has been working (or not.) On November 20, we will hear the progress of our water supply in Northern Colorado. Please come and hear about your drinking water. Cass Cairns, our Program Director, has been doing a terrific job getting information important to all of us. As a further reminder, we will have the Senior Serenaders at our December meeting. Please let Carol Ayer know you'll be at either of these lunches by replying (clicking) using this email (or ctrl-click): rsvp@narfe256.com

Upcoming Health Fair: There's a Health Fair coming up October 25 from 9:00 – 11:00 am, in Building B at the Federal Complex at 2150 Centre Avenue in Fort Collins. Open Season is November 13 until December 11, 2023.

Your Input for the Chapter 256 BOARD: While you are at it, let Marshall know whether you can help us by joining your NARFE 256 Board of Directors. We want your opinion since that's what drives our Chapter. You can reach Marshall by either simply replying to this email or clicking (ctrl-click) the following Email link: info@narfe256.com. If needed he can be contacted by phone at: 970-481-9061.

Here's to great fall weather for you to enjoy. Come see us and share your company with us at the next lunch.

Sincerely,

Henry Shands

President, NARFE Chapter 256
